Applicant(s)

FRAMPTON, PETER LAWRENCE

Examiner

QUINTIN LATHAN JR

Art Unit

4193

Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: Figure 1, reference number 10, figure 2 reference number 10, figure 4 reference number 14 and figure 6 reference number 12. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Priority

2. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in South Africa (2003/5348) on 07/08/2003. It is noted, however, that applicant has not filed a certified copy of the 2003/5348 application as required by 35 U.S.C. 119(b). Also note the office received a copy of South African application (2003/5246).

Specification

3. The disclosure is objected to because of the following informalities: on page 5, line 19 "Whilst" should be changed to –While--.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Joffe (US PG PUB 20020164561).

As per claim 1, Joffe teach a method of teaching accounting principles in which two different colours (In the preferred embodiment the boxes representing the various accounts in Fig. 1 have been conveniently color-coded so that the different types of accounts can be easily distinguished by the student)[0036] are used to distinguish that which is owned and owed from that which has been used and earned (for example, the boxes corresponding to asset accounts may be colored blue, those for liabilities accounts colored red)[0036] thereby to establish the concept of double entry accounting, question sets (selecting a instruction to illustrate a financial transaction)[abs] are used to distinguish assets (Fig 6b., element 12), liabilities (Fig 6b., element 12) income (Fig 6b., element 14) and expenditure (Fig 6b., element 14) from one another (The method provides for an instruction or series of instructions

Art Unit: 4193

representing at least one financial transaction, which is then converted by the student into an accounting oriented procedure, the result of which is a distinct representation of a particular financial condition)[0060] to facilitate their proper treatment in books of account, and words other than commonly accepted accounting words (Fig 7b., cash, inventory, revenues, depreciation, etc) are used to denote accounting concepts.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Sampson (US Patent 5390113) teaches a method and electronic apparatus for performing bookkeeping.
